

Taking you from reactive to proactive

MAINTENANCE TRANSFORMATIONS LTD

Products and Services

NOVEMBER 2026

Maintenance Transformations Ltd.

MAINTENANCE TRANSFORMATIONS LTD

FROM INSPIRATION TO INSTALLATION

We are engineers, not a software sales company. We have met many companies who recognise reliability improvement is required, and then disappear down a rabbit hole trying to invent their own solution. Much like needing a new company vehicle and then trying to build one yourself.

For cars, call Toyota, for maintenance management solutions, call us.

Once you have decided that you are ready to improve your maintenance management, our Maintenance Excellence Partnership Programme will address every aspect to ensure you hit the ground running, or you can pick and choose what you require.

Maintenance Transformations provides:

Maintenance management tools 3

Maintenance management services 6

Maintenance management training 9

MAINTRAK ONLINE MAINTENANCE MANAGEMENT APPLICATION

BWM MainTrak elevates the legacy of the original BWM maintenance management program to a Cloud based solution offering speed, transportability and exciting new features. BWM MainTrak has been developed by engineers for engineers over 30 years, not accountants or computer programmers.
You can access your account from anywhere in the Globe, on the web, tablet, or your phone, receive task notifications and work remotely. Your MS Azure hosted SQL data includes:
assets - spares - work orders = PM tasks - suppliers = purchasing - technical resources -permits and electrical safety certificates
Access your data using pdf reports, Excel or 3rd party reporting platforms, (Power BI, Crystal, Access, etc)

BWM MainTrak is robust and proven, offered in 3 models, global multi-site, single site, or micro site
All applications are licensed for unlimited users, including staff, contractors and management. MainTrak is the cheapest maintenance management solution in the world, with no hidden costs.
BWM MainTrak is well represented in New Zealand by high profile multinational customers and is the source of a multitude of maintenance management success stories.

Global Application (Unlimited sites on a dedicated global SQL database)
NZ$0+GST * Onboarding
NZ$6,000+GST pa corporate gateway. Unlimited users
NZ$3,200+GST pa per site account fee. Unlimited users (staff & contractors).

Single Site Application
NZ$0+GST * Onboarding
NZ$4,000+GST pa account fee. Unlimited users (staff & contractors)

Micro Site Application
NZ$2,000+GST * Onboarding
NZ$2,200+GST pa account fee. Unlimited users

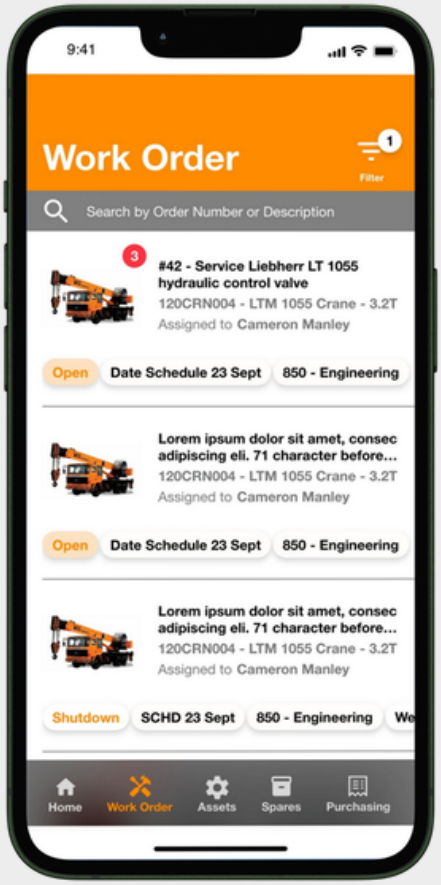
*Includes initial data upload

Service Providers
Manage your client maintenance from one global core application while providing client access to their individual asset data. Unlimited staff users.

Core site + up to 10 clients	NZ$4,000+GST pa
Core site + up to 20 clients	NZ$6,000+GST pa
Core site + up to 50 clients	NZ$6,500+GST pa
Core site + up to 100 clients	NZ$8,000+GST pa

APPLICATION ADD ONS

OPTIONAL ADD ON - MAINTRAK PHONE APP



Feel the need to mobilise your data? When field access is important for your trades staff or contractors, a phone app extension to your system may be appropriate.
Generate new work requests on the fly
Stay on top of new work, schedules or messages
Access additional task data
Authorise purchase orders remotely

Global MainTrak Phone App
NZ$1,200+GST pa global account fee. Unlimited users (staff & contractors).

Single Site MainTrak Phone App
NZ$400+GST pa account fee. Unlimited users (staff & contractors)

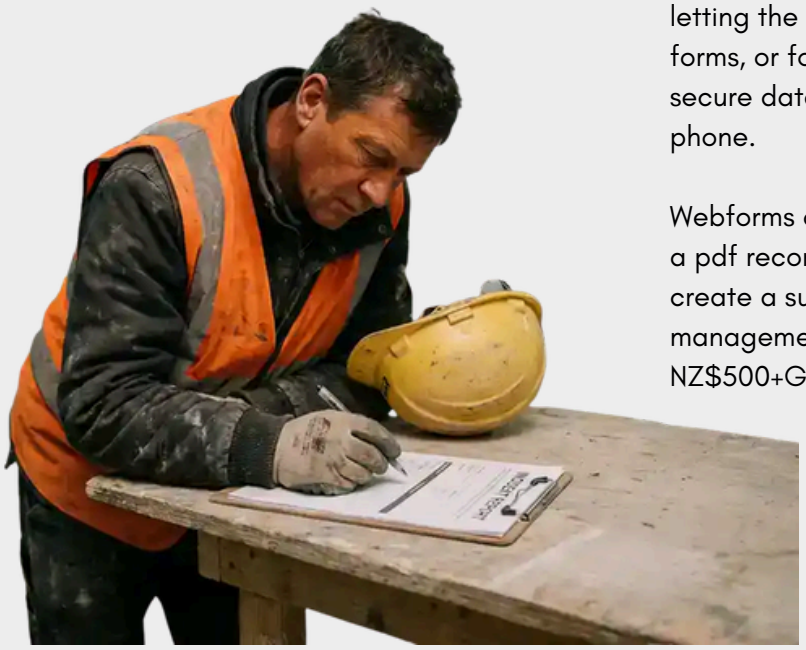
Micro Site MainTrak Phone App
NZ$200+GST pa account fee.

Work Requests QR Code Easy App
Log jobs from any smart device using our secure QR codes.
Single site NZ$200+GST pa
Global sites access NZ$1,500+GST pa.

Operational Management Reporting
We will construct, run and distribute executive, management and operational reports on your behalf.
NZ$600+GST setup/NZ$200+GST pa per site (Up to 5x reports)

On Demand Soft Reports
Let us custom write your report for you to run on demand
NZ$800+GST setup per site (Up to 5x reports)

OPTIONAL ADD ON - PAPERLESS DOCUMENTS



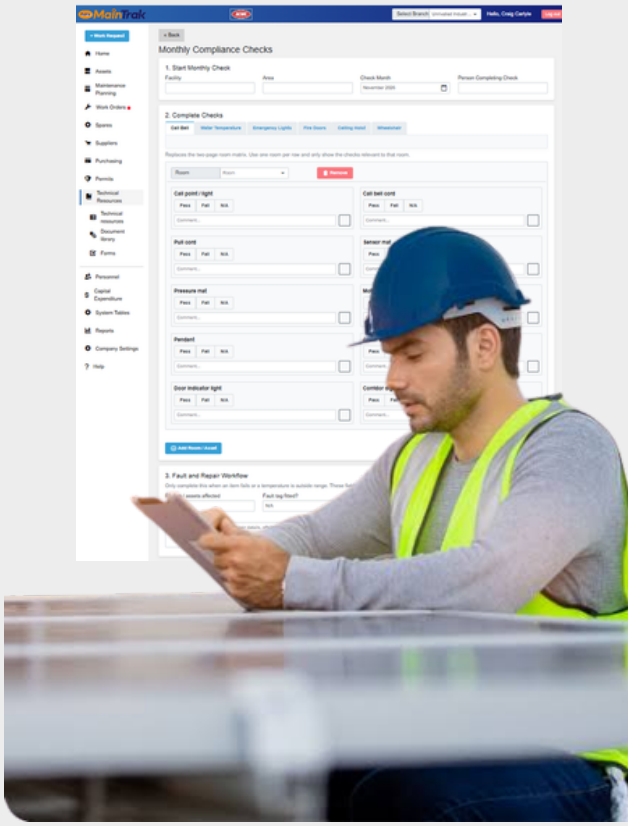
Webforms

BWM MainTrak comes ready enabled to create a true paperless environment, removing clerical workload and letting the computer do the work for you. Using your own forms, or forms written for you, we create webform driven secure data portals accessible by PC, tablet or smart phone.

Webforms can be used to close off scheduled tasks, create a pdf record, log asset meter hours directly to the asset, create a subsequent work order for any faults, alert management, and advise external contractors.
NZ$500+GST /form

Paperless Permits and Safe Work Procedures

The BWM MainTrak paperless capability can be extended to safe work instructions and procedures, transforming your safe work management to a digital and transparent level. We can provide documentation or adapt your existing content to suit. Safe work requirements can be preloaded at asset, PM task or work order level, giving you the capability to proactively manage your safe work responsibilities.
Contractor and staff inductions can be linked and added using our add-on HasTrak health and safety module.
NZ$500/permit



Paperless Scheduling

Using the power of webforms, it is possible to advise external contractors (by email) of upcoming tasks, confirm scheduling dates, sign off documentation, close off tasks and attach service reports, keeping you in the loop at all times and without providing external logins to your system.
System setup NZ$500+GST

MAINTENANCE MANAGEMENT SERVICES

FORENSIC REMOTE MAINTENANCE PLANNING

Engineering expertise and experience at a fraction of the cost. We remotely overview your maintenance planning development for your operation, turning experience into intelligence and forecast plans using our maintenance detective skills.
Institutionalize YOUR operational expedience.
Take the guesswork out of your maintenance spending.
Optimise your plant reliability.
Suitable for operations from single plant to multi-site operations.
On site costs and travel are additional to the remote service.

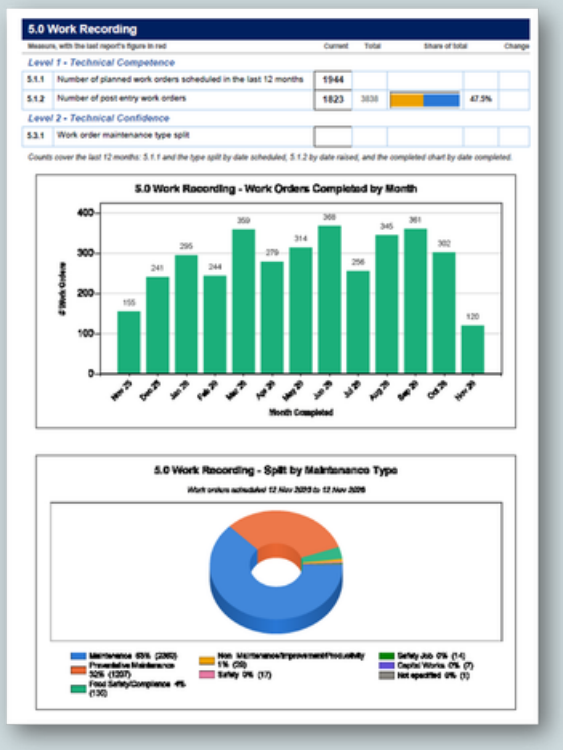
Just Planning Monthly Fee
From NZ$3400+GST per month per site
(subject to confirmation.)

BWM MAINTRAK EXECUTIVE REPORTING

Get a truly independent view of your MainTrak system performance on a monthly and quarterly basis. Find out what has and hasn't been done, what area's are giving you the most grief and where your resources are being spent.

MainTrak Executive Reporting
NZ$200+GST/pa per site.

MAINTENANCE MANAGEMENT SERVICES



BWM MAINTRAK QUARTERLY SYSTEM AUDIT REPORTS

Using the Maintenance Transformations Ltd maintenance excellence audit parameters, we will report to you on the health and state of your site using your site data.

BWM MainTrak Quarterly Audit Reporting
NZ$300+GST/pa per site.

MAINTENENCE MANAGEMENT SYSTEM AUDITING

We have decades of experience of making maintenance management systems work and what is required. We will conduct a site based audit looking at every aspect of your system. Let us audit your system and provide a reality check accompanied by a road map forward. Audits are available anywhere in New Zealand

Maintenance Management System Audit
From NZ$6400+GST + travel disbursements (subject to confirmation.)

MAINTENANCE EXCELLENCE PARTNERSHIP

Self-implementation often results in repeated classical mistakes and NO improved results even after some years.

If you buy a company car, you want it delivered, ready to perform. So why not the same with your cmms?

We have decades of implementation success experience and know all the pitfalls and traps. We will partner with you over the 2 year journey from firefighting to maintenance excellence with a prescribed menu of activities and milestones.

Prescribed steps to set you on the maintenance excellence journey:

1. Goal setting
2. Data mapping, (assets, spares, suppliers, PM Tasks, technical resources)
3. Work scheduling process mapping
4. Report generation
5. System installation
6. User training
7. Conceptual training
8. Maintenance planning training
9. PM task development
10. Reporting
11. Auditing
12. Mentoring

We will guide you to success, leaving you to focus on what you are good at. Already got some stuff? Simply choose from the menu.
Yes, we will work with any cmms. The cmms is the tool, not the craft.

Maintenance Excellence Partnership Budget Costs
Budget costs will be provided based on the steps selected and agreed timetable. All pricing is fixed cost + travel disbursements

INSPIRATION & TRAINING

Maintenance Transformations are New Zealand's leading practitioners on the practical application of maintenance planning, bringing experience across multiple industries, countries and corporates. Principal Craig Carlyle is recognised globally for his practical experience, success and passion for helping engineers succeed and this course is designed to pass on and certify that knowledge.
Whether you want to learn the basic skills, understand what you need to do to achieve maintenance excellence in your workplace or take your team on a journey, our training sessions are your first step to success.

Certified Maintenance Planner
Improve your career skills and value to your operation with the Certified Maintenance Planner course. This 3 day course will not only teach you the theory of maintenance planning but also arm you with the knowledge to achieve maintenance reliability through effective work scheduling.

Public sessions Auckland and Christchurch
NZ$2750+GST pp
(Bespoke sessions available, minimum numbers apply)

Maintenance Excellence and Lean Training
The one day session will show you how to put the "management" into maintenance management. While preventative maintenance theory has a vital place in maintenance management, many sites fall over when transferring plans into sensible, sustainable and transparent action in the real world. Attendees will learn how to implement a site driven process and the appropriate use of a computerised maintenance management system to achieve this.

Public sessions Auckland and Christchurch
NZ$850+GST pp
(Bespoke sessions available, minimum numbers apply)

MainTrak System Training
Bespoke 1/2 day onsite training for your entire team. Hit the ground running with competence and confidence.

Onsite training
from NZ$1200+GST + travel disbursements
(minimum numbers apply)

Guarding and The Safe Use Of Machinery
WorkSafe's Best Practice Guideline provides a practical solution path for compliance responsibilities when it comes to machinery. However, the assumed competency for engineering and operational staff is problematic and often leads to poor outcomes.
Our one day workshop will show you how to identify, assess and control machinery hazards and risks, assume your responsibilities, know your duties and have a good understanding of your role.

Public sessions Auckland and Christchurch
NZ$850+GST pp
(Onsite sessions available, minimum numbers apply)
