# PRICE LIST

## TRAINING & PROFESSIONAL DEVELOPMENT

### Maintenance Management Basic Training.

A 3 hour course covering everything from the concepts of maintenance management to the process of achieving professional maintenance management using modern computerised maintenance management systems. Attendees are challenged to relate the coursework to their own work environment. Although relevant to any cmms, the course is based on the Maintenance Management Flight Manual and draws examples from the BWM program. Training resources include a copy per person of the Maintenance Management Flight Manual and a training work book.

NZ\$240+GST pp incl resources

Onsite training, minimum charge \$600+GST + disbursements+ training resources pp.

### Health and safety Made Simple.

A 3 hour course designed to provide your staff with the conceptual understanding, methods, resources confidence and INSPIRATION to unravel the mysteries of health and safety management. The training is relevant to line management and operational staff alike and an essential primer to those working with health and safety in your business. Issues with health and safety stemming from a basic lack of understanding of the simple principals: it looks hard so it must be hard.

NZ\$220+GST pp incl resources

Onsite training, minimum charge \$600+GST + disbursements + training resources pp.
